THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminate fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency pertions to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas,

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early though to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Colics	Indigestion	Ulcers
Constipation the Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Complaints	Venereal Affections
Dropsy	Lumbago	Worms of all kinds
Dysentery	Piles	Weakness, from whatever cause
Erysipelas	Rheumatism

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The adult purgative effect [illegible] them. Caused by similar obstructions in the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C, 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and *find them an excellent purgative* to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, [illegible] the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse the stomach and expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

IN ORDER TO GUARD THE PUBLIC and all our old patrons against runners of the lowest grade, pregnant with false reports with regard to the GLOBE HOTEL being, or about to be, closed; and the proprietors of the same on the brink of bankruptcy, we, therefore, take great pleasure in informing the public and our friends that the GLOBE still continues to revive on the same Hautonian principles heretofore, backed by an A No. 1 Meat Market, which in itself is sufficient attraction to support the GLOBE in sustaining its equilibrium on a healthy basis.

We would also warn travellers and the public in general against the assertions of one of the above class—a meat peddler—who makes it his particular business to lead the public astray, and try to injure an institution the reputation of which, for years, is so well known to the travelling community.

The political atmosphere in Europe is dark and threatening. There is not an European power but has its "question." France has got the Rhine boundary and the Italian questions on hand. Prussia and Austria the German question. Spain its Carlist question. Italy the Roman question, and Russia its Polish question. Turkey has its Cretan question; Great Britain has its Abyssinian war, the Irish grievances and the Alabama claims to disturb its equanimity. On all sides gigantic armaments are in progress Vast armies are being created and furnished with the most effective weapons of destruction, which are no sooner adopted than they are flung away as a child flings away a toy, and another arm yet more destructive is substituted. Forces are marched and countermarched to the frontiers and massed for service. Conscripts are seized and hurried to the barracks; forts are strengthened, garrisons augmented, monster ironclads launched All the powers are in a state of chronic unrest—eagerly watching for the faintest excuse to clutch each others throats. The philosopher who wrote, "the natural state of man is war," was not far wrong. Civilization, which has done so much for the world, has failed to teach it to love harmony more and contention less. A few assembled at Geneva. The millenium was at hand. There were to be no more wars. The figurative "lion and lamb" were to be called into being by a vote of the Congress, and were to "lie down together" in the close embrace of fraternal affection. But we all know how miserably that Congress failed in its object. How it broke up in what we of the Colonies would call a "row," because each delegate had a pet grievance of his own to be redressed by force of arms before he would consent to universal amity; how, before the echoing sound of the President's gavel announcing an adjournment had died away, Garibaldi, the most distinguished member of the Congress, backed by many of his fellow members, was found in arms against the Pope, hammering away away at the gates of Rome; and how, within a fortnight after the President of the Congress had returned to France, he was arrested for conspiring to assassinate the Emperor. These *avant courriers* of the white-winged angel of Peace failed in their mission because their natural propensity to fight overcame the desire for amicable relations with their fellow men. Never in the history of the world have there been such extensive armaments, such vast sums wasted in preparing to meet an ill-defined Something which each nation imagines every other nation is preparing to launch against its security. In the French Corps Legislatif the Minister of War, when questioned as to the object of these vast preparations, replied that the best guarantee the nation could have of peace was to be prepared for war. This is doubtless a truism; but is not the state of feeling that renders necessary these gigantic preparations —that unsettles trade and commerce— that palsies every industry which has not a connection, remote or direct, with the war-making power of a nation, and drives the operatives into the army, the poor-house or the prison —a most unhappy one? A Government that arms itself at all points against assault from without at so terrible a cost as the ruin of its industrial pursuits, may surely be said to have provided a remedy that is ten times worse than the disease—for in the one case the evil is at best speculative; in the other it is but too real.

Municipal Council.

TUESDAY, March 10.

Council met at 7:15. Present: His Worship the Mayor, Councillors Gibbs, Allatt, Jeffray, Crump and McKay.

Minutes of preceding meeting read and adopted.

Communication from W. Lush, asking permission to remove the grand stand on the race course at Beacon Hill. Referred to Street Committee to report upon at next meeting of the Council.

Tenders were received from Michael Mills, Thomas Richards and Arthur Strong to furnish horses and carts for the purpose of removing dirt from the streets of the city. Referred to Street Committee.

On motion of Councillor Gibbs, the payment of $600, made to Mr Titus, was confirmed by vote of the Council.

The Finance Committee reported the books and accounts of the Clerk of the Council as correct.

Communication from Jas. Grahamslaw, asking permission to make repairs on Douglas street. Received and complied with.

Communication from Secretary of Victoria Gas Company, proposing terms upon which they would light the Council Chambers, viz: $6 25 per M. Received and referred to the Finance Committee to report on at next meeting.

A bill was presented from Cairo & Grancini, for 100 brass tags, $5. Referred to Finance Committee.

Council then adjourned.

U. S. District Court of Washington Territory.

PORT TOWNSEND, W. T., March 9, 1868.

The U.S. District Court is in Session—Judge Darwin on the Bench.

Four parties convicted of selling whiskey to Indians, all sentenced to imprisonment and fine; three to two months and $100 each, and one Billy Parsons, saloon keeper, to four months and $300.

In the latter case the jury were entrusted with the case on Saturday night at 11 o'clock when the Court adjourned till Monday morning. The Judge informed the jury, who were left in the Court room in charge of a bailiff, that he would return when they should inform him of having come to a verdict. 11 were for conviction and one for acquittal. Thus they hung fire till Sunday afternoon, when they agreed to a conviction. Clark, the counsel for the defense, brought into Court a petition numerously signed for the setting aside of the verdict, on the plea of insanity for the defendent, the physicians of the place having certified that said defendent was of unsound mind. The Judge did not regard it.

The case of the British bark Aid is now under advisement in Chambers. Dennison for libellant, Evans for the defense.

The question of jurisdiction was discussed one evening last week, and the Judge decided that it came within the jurisdiction of this Court.

The case is attracting much interest, both on account of the amount involved, the question of the liability of ship owners and masters and the distinguished counsel employed in the suit.

HOLLOWAY'S PILLS AND OINTMENT.—Prevents weakness.—Whenever circumstances produce impure blood, or lessen the force of the circulation, stagnation takes place in the lungs, and consumption or other formidable symptoms discover themselves. Let Holloway's remedies be tried on the first feelings of debility, or on the first annoyance from a dry, hacking cough. The Ointment should be well rubbed, twice a day, upon the chest, and between the shoulders, and the Pills should be taken in alterative doses, to purify the blood and cleanse the system, without weakening it, by rousing or aggravating existing nervous irritation. These observations carry additional weight in summer, when decline and general weakness from heat and other causes are more apt to prevail. 47

MALARIA!

Chills and fever and ague, and every kind of intermittent and remittent fever, spring from one cause, viz: inhalation of malaria, or miasma, which vitiates and depraves the biliary secretions, deranges the natural action of the stomach and liver, and produces the above diseases. Bristol's Sarsaparilla and Pills are the surest and safest of all correctors and invigorators of the liver and stomach. They are certain cure for malarial diseases.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DESPATCHES.

Europe.

LONDON, March 7—In the House of Commons last night, Lefevre called up the Alabama claims and urged their settlement on the plan proposed by the American Government. All future negotiations, he said, would but add to the complications already existing While he regarded a war between the two countries as unlikely, he thought that all needless irritation should be shunned.

Lord Stanley was pleased at the pacific tone of Lefevre and the conciliatory spirit of Adams, the American Minister. He claimed to be entirely neutral, but no neutrality would have pleased America. What she wanted was neutrality coupled with warm sympathy and support. How could England have refused to recognize a war which Seward had already announced to be a civil war? He thought friendly arrangements still practicable. The friendly reception of Thornton at Washington was a pledge of peace. Ministers are ready to leave the question to the people of the entire world.

Foster denied Seward's shewing of the case and thought that if any influential statesman had been sent to Washington the dispute might have been readily adjusted.

Stuart contended that while England had not violated the law of neutrality, the nation was unfriendly, rash, and her course unprecedented. Reparation was due to the United States, and he advised a mixed Convention to settle the question.

Gladstone, while doubting if reparation was due, thought the matter should be settled forthwith or given to an umpire. The country would support Stanley in a just settlement. The debate ended here.

Nearly all the leading papers have editorials this morning on the subject of the remarkable debate in the House of Commons last evening on the Alabama question. The *Times* says the debate must convince the United States Government that England wishes to settle by law this case, in the American sense, and that the failure of Great Britain to refer the claims to arbitration is due to no desire to shun her just obligations. Seward has only to meet Lord Stanley in a like spirit to lead to an understanding. The articles in other journals are generally in the same tone as that in the *Times*.

The Fenian prisoners captured recently at Dungannon are offered to be pardoned in consideration that they would give their parole to leave the kingdom. It is further reported that the prisoners unanimously refused to assent to this proposition.

A double guard has been placed around Newgate, where Burke, Casey and Shaw are confined. Their trial has been set for next month.

In the House of Commons last evening, Charles Gilmer, member for Northampton, gave notice of a bill to abolish the death penalty.

On a motion to go into committee of supply, Earl Mayo said he hoped the debate on the condition of Ireland would end on Friday next, that he might be ready to consider the question of Irish reform.

G W Hunt has been re-elected from Northampton, and will soon bring a bill before Parliament for the purchase of all the telegraph lines in the kingdom.

PARIS, March 5—Evening.—The forthcoming ministerial budget will press the payment of the principal and interest due France on Mexican bonds.

PARIS, March 7.—In the Corps Legislatif yesterday, the law regulating the press was again under consideration. A clause forbidding private allusions was adopted by a large majority, after a short debate.

LONDON, March 8.—In the House this evening, Lefevre said he desired to call attention to the failure of the negotiations with the United States Government for a a settlement by arbitration of the Alabama claims, and said in bringing forward this important subject, he trusted it would not be supposed he desired to take a course which would embarrass future negotiations by the noble Lord, the Foreign Secretary, or stop diplomatic correspondence with the Government of the United States, or which would add to complications already existing between the United States and this country. It occurred to him and to others, however, that some good might arise from the discussion of the subject, if it were conducted with candor and due sense of responsibility. He would not ask the House to follow him through a long statement, but there were facts and dates with which he must trouble the House. An earnest cause of complaint on the part of the United States Government arose out of Her Majesty's proclamation of neutrality, which was issued May 17, 1861——

DELAYED DESPATCHES.

Eastern States.

CHICAGO, Feb. 25.—A Washington special says the Committee have positive evidence that Johnson endeavored to execute a conspiracy against Stanton and Congress, and one of the articles to be presented will arraign him on that charge. General Emery, District Commander at Washington, will be examined on this charge. Andrew Johnson, on Saturday, during an interview made such propositions as to show such a conspiracy, and only wanted the assistance of the military to carry it out, and this fact may delay Committee in reporting the articles for several days, although efforts will be made to get it before the House to-morrow, as it is the only day on which the rules can be suspended before next Monday, and now that the impeachment is a foregone conclusion, all parties say the quicker it is ended the quicker the country will return to a state of tranquility. Prominent parties believe that about three weeks will be occupied before a final vote can be reached in the Senate. The President is despondent to-night and irritated because Attorney General Stanberry made no application for a *quo warranto*. He says his positive orders were disobeyed.

General Emery to-day refused to detail a guard for the funeral of Major Kelly, saying that all the troops must be kept together in anticipation of possible trouble.

The *Journal of Commerce's* special says after the release of Gen. Lorenzo Thomas, he went to the War Office and demanded possession. Stanton ordered him to leave the office, threatening to put him under military arrest, whereupon Thomas went to the White House to consult with the President.

There were present at Secretary Stanton's office this morning, Representatives Morehead and Kelly, of Pennsylvania, Van Horn and Van Wyck of New York, Dodge of Iowa, Ames of Massachusetts, Freeman Clark of New York, and ex-member of Congress Columbus Delano of Ohio.

About 11:30 a. m., Gen. Lorenzo Thomas, having been released on bail by Judge Carter, presented himself at the door and told Stanton he would like to see him. Stanton told him to proceed with anything he might have to say.

Thomas remarked that he had come to discharge the duties of Secretary of War *ad interim*, having been ordered to do so by the President of the United States.

Stanton replied that he should do no such thing, and ordered him to his room to perform his duties as usual.

Thomas replied that he had been ordered by the President to act as Secretary of War *ad interim*, and he intended to do it.

Stanton again replied that he should not, and again ordered him to his own rooms, and denied the power of the President to make any such order.

Thomas said he would not go—that he should obey the orders of the President and not obey the orders of Stanton.

Stanton remarked that as Secretary of War I order you to your place as Adjutant General.

Thomas—I shall not do so.

Stanton—Then you may stay there as long as you please, if the President orders you, but you cannot act as Secretary of War.

Thomas then withdrew into a room opposite, being Gen. Scribner's room.

Stanton immediately followed him. After some further conversation Stanton said:

Then you claim to be here as Secretary of War and refuse to obey my orders.

Thomas—I do, sir. I shall require the mail for the War Office to be delivered to me, and shall transact all business of the War Department.

At this juncture Gen. Grant and Aid came in. Gen. Grant said, playfully, to Stanton and his friends: I am surprised to find you here. I supposed you would be at my headquarters for protection.

Specials state that after a long conversation with Robt. J. Walker, Thomas left the War Office. It is reported that Walker's advice was to remain passive and carry out all orders of the President, but wait the action of the Courts and not forcibly eject Stanton. Grant took no part in the controversy between Stanton and Thomas.

The *Herald's* special is also informed that numerous dispatches have been received from the Grand Army of the Republic, a secret organization with posts established in all parts of the country, endorsing the action of Congress. The general tenor of these dispatches is that the members of the Grand Army of the Republic will not see Congress overthrown, if violence is used by the enemies of Stanton. One hundred thousand men are ready to come to Washington and put him back till order is restored. They are in a great state of excitement, and unanimously resolved to take sides with Congress and defend it in all its measures if affairs be brought to such an extremity.

PHILADELPHIA, Feb. 25.—Democratic meetings have been called in nearly all the wards in the city. The Keystone, the largest Democratic organization in the State, resolved itself into a military organization.

NEW YORK, Feb. 21.—The Papal Zouaves, from Montreal, have arrived, and will sail to morrow *via* St. Thomas. There is no truth in the rumor that Iturbide will join them.

The famous prize case of the steamer Peterhoff has been settled by payment of the English claimants of $200,000.

PORTLAND, Me, March 2.—The charter election to-day resulted in the choice of a radical mayor by about 150 majority. This shows a Democratic gain of 800 over the spring election, and 387 over that of last fall.

CONCORD, N. H. Narch 2.—The republican State Committee publishes the following canvass of the vote in New Hampshire on the second Tuesday of March: Republicans 38,427; Democrats 35,203; doubtful 2,891.

A special despatch to the *Tribune* states that the Postal Committee is determined to investigate everything relating to the Overland Mail contract, and the truth of the allegations that Wells, Fargo & Co. have been carrying their own private mails to the detriment of the public service, and selling their own stampse to the people of the Territories, instead of the Government stamps. The Western members are very urgent in the matter, and resolved that the investigation shall not be smothered or lobbied.

South and Central America.

NEW YORK, Feb. 27—The *World's* Buenos Ayres correspondent of January 14, says: Gen. Asboth, Minister of the United States, is lying very ill, and certainly cannot survive many days.

Some of the chief judges and lawyers, and many of the principal merchants of the city, have been victims of the cholera. The pestilence has carried off in Buenos Ayres, in forty days, five thousand persons. All work is suspended, and those who depend for food on their daily labor, suffer. Carts to convey the dead can't be had, nor men to dig graves. Churches are taken for hospitals, and many unable to be conveyed to them, die alone in their houses.

A hundred and fifty shocks of earthquake were felt at Union, Salvador, in February.

Two Peruvian iron clads, stationed at Valparaiso, have been withdrawn through fears that the war with Spain was not over.

Recent rains have damaged the wheat in the Southern provinces of Chile.

The Minister of the Interior of Peru has resigned. All export duty on native productions of Peru is abolished.

STATE OF THE RIVER AND ROAD.—Fraser River is frozen from Yale to the 8-mile ranch below Hope. A gentleman who arrived yesterday says he could have driven a four-horse team from Yale to the last-named [illegible] of opinion the ice will not move out until about the 1st of April. Traveling over the ice is performed in canoes mounted on runners and drawn by Indians, who make very rapid time. The sleighing is good from the Junction into Cariboo. Bates, Beedy & Co. and Jerome Harper are pushing their stocks of flour into the diggings on sleighs. In some parts of the wagon-road the snow is soft, a thaw having set in. Below the Junction to Yale the sleighing is good in places; but, as a general rule, wagons are preferred. Evidences of an early spring at Cariboo are not wanting.

STEAMSHIP OPPOSITION.—Rumors of an opposition steamship line between here and San Francisco are getting thick again. The report comes to us second-hand from a passenger by the Continental, who states that the North American Steamship Company will soon place the Moses Taylor and the America on this route. How much reliance may be placed on these reports we are unable to say; but that the company above mentioned have talked of extending their line to the Columbia river, is perhaps, certain. The prevailing high rates of freight and the scarcity of sailing tonnage conspire to intensify the desire for an opposition line. It seems ot be the only chance by which our productive interests may escape serious embarrassment.—*Portland Oregonian.*

THE WRONG CHAP—A man by the name of Charles Fisher attempted to entice a seaman belonging to the Zealous to desert by offering to take him across the Sound as cheap as any other man. Jack, not feeling inclined to change his masters, reported the fellow to the police, who brought him before the police court yesterday, when he was convicted of the charge and remanded two days for sentence.

From Cariboo.

Barnard's Express arrived at New Westminster from Cariboo on Wednesday last. The news is meager, and, for the most part, devoid of interest. It is to the 14th Feb. The severe cold which prevailed continued to paralyze active mining operations. 'Centreville' is now decidedly the centre of attraction. Quite a town is springing into existence. One establishment alone—a brewery—is being erected at a cost of $10,000. Such facts as these unmistakably demonstrate the great confidence felt in this new gold field. On Red Gulch, the Tom and Jerry struck a prospect on the 12th. The Olive sunk a shaft 94 feet deep and were driven out by water. The Discovery claim on this gulch was paying $80 to $90 to the share, per week. A very large amount of prospecting is being carried on. The Minnehaha and Willow continued to pay as usual. The weather was beginning to moderate.

ELEVEN DAYS LATER.

A party consisting of Mrs Lee, Mr Strauss, Mr McMan and Mr Gribble, of Cariboo; Mr Adams, of Soda Creek; Messrs W H Sutton and Isaac Oppenheimer, of Yale, and Mr O'Tool, of Westminster, arrived from Yale last night. They made the trip from Yale to this place in three days, travelling on ice down to Coe's ranch. The news by this party is to the 23d February. The weather had undergone a very decided change, and the show was melting, giving a supply of water for mining purposes, and work had been resumed in many claims on William Creek. Amongst those working were the Bald Head, Hit-or-Miss, Welch, Cariboo, [illegible] Neversweat (making good wages), Caledonia, Morning Star (struck a prospect of $9 to the pan, with pay dirt 10 feet thick). The Cariboo Co expected in 10 days to reach the lead where they took out 190 oz to one pick in a week, when driven out by water. The markets are unchanged. On the evening of the 22d the news reached William Creek that on Canadian Creek a prospect of $1 to the pan had been struck. On Mosquito the Minnehaha and Willow continued to yield as usual. The weather was very mild in the middle country, and farmers had begun to plough in the Lillooet District.

THE *Government Gazette*, paid for by the tax-payers at large, seems to have been converted into a sort of standing 'certificate of chatacter' for New Westminster. Saturday's number of the *Gazette* contains a letter from Capt Cooper, on the last batch of correspondence upon the Capital question. The writer, while affecting to censure Captain Richards' statements, really furnishes a splendid endorsement of that distinguished officer's opinion. The following paragraph bears out and fully sustains Capt Richards in all he wrote to the London Committee; the only difference being that while Capt Richards administered his nauseating dose of truth without gilt, Capt Cooper has made his more palatable by sugar-coating it. Capt Cooper in his 'certificate' says:

'There is no River in the four quarters of the Globe better protected from a heavy sea, or possessing so great an immunity from risk or danger, than the Fraser. *It is quite true that vessels will sometimes take the ground,* as they do in every other port, but with the *necessary appliances to keep the channel buoyed, good pilots, and the aid of* STEAM POWER when required, vessels up to 19 feet draught can reach New Westminster every day in the year (*excepting the few weeks in severe winters when prevented by ice*) and if by any contingency a Vessel takes the ground on the soft mud or sand, the only inconvenience would be a few hours' detention.'

Capt Cooper, be it borne in mind, is Chairman of the Pilot Board that fixed the rates of pilotage to New Westminster at nearly double the rates charged for bringing a vessel into any other port in the Colony, and therefore writes knowingly. Unhappy Capital! Vessels do '*sometimes take ground*;' but with '*pilots and* STEAM POWER' they '*can* reach New Westminster 'excepting the *few weeks when prevented by ice*.' And this is the Paradise of commercial ports to which are beckoned the ships of all nations from every clime! Well may you petition to be saved from your friends! Capt Cooper's letter might better have remained unwritten; or, being written, should never have been published. His intention was good; but the effect is damning to the cause it was designed to serve. Nevertheless, we protest against money being wasted in the publication of a Government newspaper, for no other purpose than to bolster up a sinking town. With the differences that exist between the places Government has nothing to do; and its interference in this case—although in the highest degree favorable to Victoria's interests—is unwarrantable, undignified and paltry.

FROM KOOTENAY.—We are in receipt of advices from our Southern gold-field to the 6th January. The winter was very severe at Kootenay and, consequently, little mining was being done. The markets were pretty well supplied and living was moderately inexpensive. At Rock Creek and Osoyoos Lake the weather had been very severe, and stock had suffered in consequence. Mr Haynes, Mr Allison and Mr Smith, the three principal people of that part, were making arrangements to come over to Hope, where they are expected in the course of next week. Mining operations on Rock Creek and the Semilkameen had been suspended in consequence of the severity of the weather. The snow was very deep on the mountain trail.

MR CLARKE'S BENEFIT.—The performance for the benefit of Mr Charles Clarke will come of this evening at the Theatre. The beautiful comedy of 'Still Waters Run Deep,' and the capital farce of 'Boots at the Swan,' will be presented by the Amateur Dramatic Club, assisted by the favorite artistes Mrs Jenny Arnot Fowlis, Miss Lizzie Yeoman, Mr Musgrave Anderson, Mr Oliver and others. Mr Clarke will play the *role* of Walter Mildmay, which is universally pronounced one of his best characters. We hope that Mr Clarke's valuable services in the cause of charity will meet with a substantial recognition on this occasion.

CAPTURE OF A STAG—SPLENDID SPORT PROMISED.—Mr W Snyder and others at Elk Lake yesterday morning captured a magnificent stag. The noble fellow was cornered and chased into the lake with dogs. He tried to escape by swimming, but was followed in a boat and captured alive. At 2 o'clock on Thursday his stagship will be set at liberty at Ogden Point, and left to run for dear life, followed by a pack of trained hounds. Amateur huntsmen are invited to take part in the sport. Should rain fall to-morrow the hunt will be postponed until Friday.

THE steamer Emily Harris, 8 hours from Burrard Inlet, with 18 passengers, 70,000 feet lumber, 18,000 laths and 14,000 shingles, arrived yesterday morning. Among the passengers were Messrs W. H. Sutton, J. R. Adams, W. L. Alexander, J. Oppenheimer, W. Strauss and Mrs. F. V. Lee.

THE Enterprise sailed for New Westminster yesterday morning at 9 o'clock. She had a small freight but quite a number of passengers, among whom were the Hons. Messrs DeCosmos and Barnard. She will not return until Thursday.

A CHANCE.—The suspension of the new Postal Treaty between Great Britain and the United States for amendment, affords our local government an opportunity to press its claims upon the attention of the Imperial government. Will it embrace it?

NOTICE.—In addition to our regular Letter Express, we have now completed arrangements for forwarding and receiving a weekly Treasure and Freight Express overland *via* Olympia and Portland.—WELLS, FARGO & Co.—Victoria, March 10, 1868. 6t

NEW BUILDING.—The Hudson Bay Co. are about soon to erect a bonded warehouse on Wharf street, which is to be two stories in height and 100 by 50 feet. Mr Tiedeman is making the plans for its construction.

IT is rumored that Mr Saunders, Magistrate at Lillooet, is one of the officers whose services will be dispensed with by Government in furtherance of its retrenchment policy.

[illegible] terday to tow a vessel down from Moody's mill, which has just concluded taking in a cargo of lumber.

SAILED.—The California, from San Francisco, and the Fideliter, from Portland, sailed yesterday for this port.

THE Eliza Anderson with passengers and freight arrived at 5 o'clock yesterday morning from the Puget Sound.

THE Thompson River bridge has been seriously damaged by ice. $5,000 will be required to make good the damage.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony,** and **Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors** and **Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,
INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copaiba and Cubebs. The injection is used in recent, and capsules in more chronic cases.

LIFE DEPARTMENT

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, without any other deduction whatever. Thus the assured enjoy the profit WITHOUT THE LIABILITY of the Mutual System.

The participation in profits has been most liberal. Should claims arise before the next investigation, a prospective bonus of nearly 1½ per cent. is allotted.
